By Telegraph to the News. WASHINGTON, D. C., Oct. 25 .- The Cabinet session to-day was brief and destitute of general interest. There was some conversation concerning reports of trouble at the political meetings in South Carolina. Telegrams were read from parties in that State, complaining of the difficulties there, but it was agreed that nothing could be done by the General Government while the Judicial processes of the United States Courts are not resisted, and it is acknowledged they are not. Some 400 illicit distillers and tobac-

co blockaders, now under indictment at Statesville, N. C., petition the Revenue office for the same clemency as was recently shown similar offenders in South Carolina ; that is to be allowed, after pleading guilty, to have their sentences suspended during good be-havior. Their petition will probably be granted.

SYNOD.

Third Day's Proceedings--Resolutions as to Desecration of the Sabbath--Reports of Committees.

Special to the News.

GOLDSBORO, N. C, Oct. 25. The report of yesterday was of the proceedings of the Synod to its adjournment at 1 o'clock. The Synod met at 3 p. m., when a large number of new delegates appeared and took their seats. The first order was the selection of the place for holding the next meeting of the Synod, and Statesville was selected, and the time fixed at Wednesday, Oct. 23, 1879. Mr. John McLaurin, the editor of the North Carolina Presbyterian, who is also a lay delegate from the First Church of Wilmington, made a statement to the Synod as to the a statement to the Synod as to the general condition and prospects of the paper, which was very gratifying, saying it was receiving the assistance of the ablest pens in the church, &c. Several members of the Synod endorsed the remarks of Mr. McLaurin, and urged all the members to use their best efforts to increase the circulation of this the authorized organ of the church in the authorized organ of the church in North Carolina. Resolutions to this effect were offered by Rev. W. S. Lacy and unanimously adopted.

The Rev. E. H. Hardin offered a re-

solution in regard to the increasing desecration of the Sabbath by the railroad companies in running and unloading freight trains on the Sabbath day. A special committee, consisting of Rev. E. H. Hardin, Rev. R. B. Andun and Rev. L. McKinnon, and Elder Dr. J. J. Summerall and A. M. McPheeters, Esq, were appointed to report on the whole

subject to the present meeting of the Synod. The report will elicit a full discussion. Mr. Alex. Sprunt made a report on the books of the Treasurer of the Synod, showing them to be in a very good condition with a surplus of funds on hand. Rev. F. H. Johnson, chairman of the Committee on Publication, made a full report of this important work. The Rev. H. G. Hill, chairman of the Committee on Sustentation which includes the Home Mission and Evangelistic work), submitted a most

interesting report, showing a very healthy increase in the number and efficiency of our churches. He offered the following resolution, which was unani-Resolved, That the Synod recommend

PRESBYTERIAN STATE A Husband Asserting That His Wife was Buried Alive.

Mrs. Walter Dixon, of Patterson, N. J., died last Friday morning and her body was placed on ice. Sunday, while the preparations for the funeral while the preparations for the funeral were going on, her husband, who was mourning over the body, suddenly began to embrace it and joyfully declared that his wife was not dead, that her hand, which he had been pressing, was still warm. The face of the corpse was soft and of a roseate tinge, and the two sons of the woman, sharing their fa-ther's belief, at once embraced the body with every expression of joy. The physicians, however, who were at once summoned, decided that the woman was dead beyond all question, declaring that having been packed in ice for forty-eight hours would have killed her if she had not been dead before. It required, however, much persuasion on the part of the friends present before Mr. Dixon, and his two sons would consent to have the ceremonies proceed. Mrs. Dixon, it appeared, had expressed a fear of being buried alive, and exacta fear of being buried alive, and exacted a promise from her husband not to bury her body until it was entirely certain that she was dead. At the grave he demanded to see the body, and the coffin was opened. After feeling her hands and face he consented to the buriel but as he turned from the to the burial, but as he turned from the coffin he fell to the ground insensible. The body was buried and Mr. Dixon removed to his home. He is still of the opinion, however that his wife was buried alive.

The Bonanza of Bonanzas. Arizona is set down as the prospective nurse of bonarza kings. Her mines are said to verify the prediction of Humboldt, that they would be found richer than the richest of Mexico. While the great Comstock vein is worked at an expense of thirty dollars per ton, an expense of five dollars per ton is said to be the maximum cost of mining and milling the ores from the Arizona mines. The veins are said to be of great width, permanency and freedom from breaks; to be rich in gold, silver and copper, which increase in amount as greater depths are attained, but to be free from the baser metals. The mines are praised as being easily worked, and at small expense compared with those of Colorado or Nevada; as being well supplied with wood and water, and as lying in a region which boasts the finest climate in the world. When these facts become generally known the depopulation of the east through the rush to Arizona of victims of the mining fever will be a natural consequence.

Dime Novel Heroes.

N. Y Tribune.

Chief of Police Meldrum, of Newark, N. J., received a dispatch from Superintendent Walling, of this city, on Sunday afternoon, to stop three young men, all having guns, who were supposed to have started for the West and were expected to pass through Newark on foot. Last evening the three youths were arrested in the lower part of Newark. They were armed with Springfield rifles, revolvers and bowie-knives, and had a supply of gun-powder and cartridges. They said they had got tired of the city, had been reading stories of wild frontier life, and had resolved to go West and hunt Indians. They had a small sum of monon foot.

Doubt as to Her Fate,

Courier Journal. Since Captain Tyson reported the arrival of the Arctic exploring schooner Florence, at St. John, the terrible storm along the New England coast has caused apprehensions about the safety of the vessel. Captain Howgate himself believes she is lost. It would indeed be unfortunate if the Florence should be lost after her adventurous trip along the Greenland coast, and it is a pity that Tyson was obliged to return on account of the failure of the appropriation for the support of the Howgate polar colony.

The Tobacco Trade.

Washington Post. The movements in the tobacco market during the past nine months show a large increase both in sales and receipts over that of last year. The sales for this year amount to 62,000 hogs-heads, while for last year they footed up only 55,615 hogsheads. Owing to agitation of the question of a reduction tions are given as follows: Hudoos, 139,343,820; Sikhs, 1,174,436; Mohammedans, 40,867,125; Buddhists and Jains, 2,832,851; Christians, 897,682, others, 5,417,304; and "religion not known," 532,227. The united military of the tax in the last Congress the sales fell off, leaving an unusually large stock of tobacco on hand. This amount, together with the new crop, is estimated to be about 403,000 hogsheads. While the demand has been correspondingly large, yet a large quantity still remains on hand. As an off-set to this, the crop, through chance or design, and probably the latter, shows a considerable percentage of reduction. It is argued from this condition of affairs that the market supply will continue light, and the crops made to correspond as long as prices continue to rule as they do now. The tobacco growers and the manufacturers bowever propose remanufacturers, however, propose re-newing the determined effort of last winter to secure Congressional action in reduction of the present tax of twentyfour cents per pound to eighteen. The complaint comes from Virginia and the West of abandoned plantations and manufactories, simply because of the burden of taxation which rests upon this industry.

Trouble About a Barren Land.

Balto, Sun. Fifty years ago it is likely that any one might have almost have had the bleak and dreary peninsula of Patagonia for the taking, but the case is very differ-ent at present. The discovery of gold in California enhanced the value of the Straits of Magellan, as a commer-cial route; the Chilians found the seal fisheries valuable, and the northern plains, bordering upon the Argentine Republic, furnish good pasturage and contain great herds of guanaces. Simultaneously with these discoveries both Chili and the Argentine Republic set up adverse claims to the peninsula, and these claims have been pressed with so much ardor that there is danger that the two republics may at any moment quit diplomacy and go to war for their settlement. Chili claims not only the part of the peninsula west of the Andes but the coast line also through the Straits of Magellan, and it is this latter part of the claim which the Argentine Republic will not allow. At present there is entire non-intercourse between the two countries, the Argentine minister having withdrawn from Santiago and the Chilian from Buenos Ayres.

Refusing to Take a Trade Pollar.

N. Y. Tribune. There was a trouble on a street railroad in Allen street, on Tuesday night. Two of the passengers offered the conductor a trade-dollar in payment for their fares, This the conductor refused. The father produced a five-cent nickel, but the son would offer no money except the trade-dollar. The conductor undertook to put him off, but it was not until the street had been blocked by cars, and the father, the son, and some friends on one side, and several conductors and policemen on the other, had engaged in a general fight, that this was accomplished. The two men even-tually spent the night in the station house. The Judge gave a decision against the street railroad company, and regretted, he said, that a difficulty should have arisen because of the de preciated value of a coin issued by the

Keeping a Watch on Mexico.

N. Y Tribune, The authorities at Washington and the officers along the Mexican border are watching with interest the result of the movement of Mexican regular forces toward the Rio Grande. The officer in command declares that he comes to the border solely to repress Indian and other raids into American territory. Onr authorities are apprehensive that the quartering of these regular troops among the rather lawless population of the territory adjoining the border may lead to revolution and a rising that will drive out these troops and cause such general disorder on both sides of the line as to compel our forces to interfere. It is a significant fact that the best Republicans of Texas do not desire war with Mexico.

Soothing the Savage Breast.

Philadelphia Times. All good Indians will be pleased to read in the daily newspapers that the mint has finished the design of a new bronze peace medal, with a beautiful head of Hayes an it, which is to be distributed among the friendly Indian chiefs. This sort of conciliation policy must have a beneficent effect in settling the Indian question, but the benefits would surely be more far-reaching if the medals were also distributed among the unfriendly chiefs. A bronze medal with the head of Hayes on it could not fail to soothe the savage breast, and nothing calculated to bring about such a desirable result ought to be left uns

A Romance of Dentistry.

ourier Jourua I. Teeth are not, ordinarily, matter meet for romanticism, but the Oakland Times chronicles a very poetic episode resultant from the transplanting of a tooth. A "society belle" of Oakland had susta ned the incomparable loss of a front tooth. She appealed to a leading dentist, who in due time was en-abled to supply the deficiency from the dental store of a handsome but impecunious Spaniard. The tooth took root and made itself at home in the lady's mouth. From the Hundred dollars he received for the prize the foreigner was enabled to establish a proserous business. In the meantime the minds of both young persons had been busied in wondering; the one over the origin and the other over the destination of that tooth. One evening at a "select party" they met—he smiled and casually mentioned the cause of the vacancy in the front row of ivories; the "society belle" gave a little shriek and now it is rumored that a lovematch will shortly occur in fashionable Oakland circles between the respective

Since that date the "independent" party has rapidly de-clined in influence. Next to our "society" people, the Canadians are the

James Laxton, colored, was hanged here to-day. The scene was only witnessed by a limited crowd. The villian nessed by a limited crowd. The villian died with professions of his innocence of the foul crime for which he suffered. The case has been one of peculiar interest and the just end of this desperado has been slow in coming. About two years ago Laxton committed rape upon years ago Laxton committed rape upon the person of Nancy Barlow, a white woman in Caldwell county. He was captured, tried and found guilty, but took an appeal. The case being returned he was again adjudged guilty. However, some doubts as to his commission of the deed led to his being thrice respited. Not long since he broke out of jail, in company with some fellow prisoners, but was speedily refellow prisoners, but was speedily re-captured, His hanging is another warning to the perpetrators of the foul crime for which he swung.

Misappropriation of Virginia Funds. Baltimore American.

Dr. Ruffner, Superintendant of Public Instruction in Virginia, has published a statement in which he charges that the large sum of \$850,000, collected from the people and set apart by law for the support of the common schools, has been diverted to other purposes. If to this is added the interest on an-other fund which the State holds for the use of the schools, the whole amount in arrears is \$1,113,052.26. The money has not been stolen and squan-dered, but it has been misappropriated; that is, it has been diverted from the use to which it was solemnly dedicated by law, and applied to the payment of the ordinary expenses of the State Government. Dr. Ruffner uses the plain word "robbary" when speking of this misapplication of the school fun.

North Carolina Gold.

Washington Fost. The arrangements recently perfected by the Treasury department to purchase the gold bullion deposited at the United States assay office at Charlotte, N. C., at its value, less the usual mint charges and the expense of transportation to Philadelphia, are meeting with great success. The annual gold yield of North Carolina is only \$150,000 but the producers were compelled to dispose of their gold to bullion dealers at a heavy discount. Under the present management they can exchange it at par with legal tenders or silver dollars, thereby greatly increasing the production. Since the order was issued from the Freasury department there has been a

very noticeable increase in the gold receipts from this section. Errors About China.

An educated Chinaman, Kwang Chong Ling, is writing letters to California journals, in which he contradicts many current ideas about China. He says that the population is only 100,-000,000 or 120,000,000, instead of 450,-000,000 that the country has reached the limit of agricultural development; that the population and prosperity have been decreasing since 1761; that unless improved machinery and methods are adopted, the people will not be able to support themselves: that the wealth of the empire is in the hands of the few, and that with a diminishing population and increasing wages at home, there can be no great tide of emigration to this country.

No Play in That.

Tarboro Southerner. The Washington Light Infantry arrived here from Raleigh on Saturday norning, found the boat not running and tramped to Penny Hill, eighteen miles, to catch the Edgecombe. This is a phase of playing soldier, almost enough to take the starch out of chivale ry itself.

The Second Time a Bolter.

ee Dee Herall, Is there any one, "any dear friend of his" who is ready to say that Judge Merrimon will submit his claims to the Democratic caucus and be governed by its actions? It seems not: and if this be so then he is a bolter and disorganizer for the second time, and no true Democrat can consistently support him for Senator.

The Bad Boy. "Have you seen any mad dogs go by here just now?" cried out a bad little Massachusetts boy. "Mad dogs—mercy" cried the woman, and she threw four white sheets on the ground in a heap, and got into the house in four bounds. The boy maintained his position, and after a few minutes the woman put her head out of the door and asked: "Have you?" "No," was the reply; "I guess the season for them has drawed

A Remarkable Result.

It makes no difference how many Physicians, or how much medicine you have tried, it is now an established fact that German Syrup is the only remedy which has given complete satisfaction in severe cases of Lung Diseases. It is true there are yet thousands of persons who are predisposed to Throat and Lung Affections, Consumption, Hemorrhages. Asthma, Severe Colds settled on the Breast, Pneumonia, Whooping Cough, &c., who have no personal knowledge of Coschee's German Syrup. To such we would say that 50,000 dozen were sold last year without one complaint. Consumptives try just one bot-tle. Regular size 75 cents. Sold by all Druggists in America.

November

MANY reforms in legal procedure, especially in criminal matters, are needed. It is to be trusted that the next Legislature will make them.

Gov. Hendricks is to stump Pennsylvania. His recent canvass of Indiana was admirable in every particular, and good results must follow from the speeches he will make in the Keystone

went up from Charleston, that a municipal corporation cannot tax the bonds these Inferior Courts, (formerly styled it issues. Justices Miller and Hunt dis

The number of county fairs to be held in the State this season shows a very great increase, while the interest manifested keeps pace with the new movement. It is a gratifying sign to all friends of agr culture.

It seems as if many of the fever refugees will take no warning. After all | ble that an extension of their jurisdictheir trouble to avoid the plague, they now rush into its arms. It is simply madness for any refugee to return to his home just now.

The North Georgia Fair, now in progress at Atlanta, shows what the people of that commonwealth can do in the way of such exhibitions, it far exceeding in attractiveness and extent any held in the South.

The morning of the 6th of November will be a rattler for the daily newspapers. Thirty States are to elect Congressmen on the 5th, and the struggle will be a tremendous one. The interest will scarcely be less than that excited the hotel and asked to see Mr. Hartby a Presidential election.

The increased immigration from Europe is one of the best signs of returning prosperity. In 1873, no less than 473,141 aliens came to this country with the intention of becoming citizens. The number fell off until, last year, only 138,469 came to our ports. The statistics of the present fiscal year indicate a handsome improvement in this respect. Some think the arrivals will this year will reach 200,000.

Josiah Turner calls himself a reformer. He was elected in Orange this summer, and at the last term of Qrange Superior court there were eight capital felonies on docket, a thing which has never happened before since Orange was a county. Just in proportion with Turner's success have the thiever, rozues and scoundrels multiplied and flourished in that county. We do not want to risk it in this District.

Turner to be the Radical Candidate for Governor.

It is now pretty generally understood that Josiah Turner is to be next Radical candidate for Governor. This was doubtless a part of the original bargain and sale when he "sold out" himself to that party. If the chances of the Republican party continue bad, as is likely, the managers will doubtless keep faith with Turner. But if, by any public misfortune, the chances of the Radicals electing their candidate for Governor should improve, Josiah Turner would be unceremoniously thrust aside, and some Radical with a less damaged reputation will be nominated.

Business Failures.

The Mercantile Agency Circular of Dun, Barlow & Co., says the number of failures in the United States and Canada for the quarter ending with September 30, 1878, was 2,853, involving \$66,378,363. The number for the

parison with the corresponding period of last year, is accounted for by the circumstances attending the termination of the National Bankrupt Law on September 1st. During the first two gust—all those who had hitherto not sought relief, availed themselves of the only opportunity afforded for obtaining a discharge from their obligations, who apprehended difficulty in meeting payments, took the short cut to a settlement afforded by the Banmonths of the quarter-July and Auto a settlement afforded by the Banrupt Law during its continuance. These two classes were supplemented by those who made fraudulent failures, and endeavored to make money by compromising at less than the face of their obligations, so that there were compressed within the brief period of sixty days, the results of numerous mistakes and misfortunes of the past, gloomy anticipations of the future, and not infrequent fraud.

Inferior Courts.

No act of the last Legislature probably has given more general satisfaction or been productive of greater benefits than the act to establish Inferior Courts. The bill was introduced and championed by Senator W. N. Mebane, of Rockingham. It was well conceived and well drawn, and under the efficient championship of its supporter passed both Houses with very slight amendment. Experience has demonstrated the wisdom of the measure. It has established a court cheap in its expenditures, popular in its magistrates taken from among the people themselves, economical by its making possible frequent jail deliveries. At the same time it fulfils the guarantee of a speedy trial by jury made in our Bill of Rights. Before the establishment of this tribunal parties put in jail on a charge of crime were liable to lie there till the next a court cheap in its expenditures, popu-Superior Court, which might be six months off, at their own loss and inconvenience and at the expense of the county, and this, though frequently the prisoner would turn out innocent or be acquitted of the crime. To arrest an innocent man and lock him up for six months at the loss of his time, the detriment of his health and at the expense of the taxpayers was surely no light matter. In counties where four terms of the Inferior court have been established there can be generally only two months detention in jail as there are always two terms of the Superior Court still. There are many other reasons which have made the system

popular. The judges are greatly less expensive than would be the case with a system of Criminal Courts as adopted in two of our counties The Supreme Court of the Uni ed (Wake and New Hanover.) Now, as States has just decided, in a case that formerly, many of the best men in the State have taken the Chairmanship of Courts of Pleas and Quarter Sessions,) among many such we need only name Hon. M. E. Manly in Craven, Thos. N. Hill, Esq, in Halifax, Col. W. H.

> Cheek in Warren, and Jos. B. Cherry in Bertie. In short, the system has worked well and is popular. Such amendments as experience have pointed as necessary will doubtless be made. It is probation so as to embrace civil actions to a limited amount would work well.

A Bloody Tragedy.

Charlotte Observer. A bloody tragedy was enacted at Lumberton, Robeson county, Wednes-day morning. Miss Amelia Linkhaw is pretty, modest looking young lady of that town. Six or eight months ago she was receiving the attention of Mr. E. Hartman, a well known young man, also a resident of Lumberton, but at present connected, as traveling salesman, with a grocery house in Baltimore. There relations seemed to be pleasant then, and subsequently, so far as the public knew. Hartman boards at Ranche's Hotel, when he is in town. Miss Linkhaw stepped into the parlor of man. That gentleman responded promptly to the call. As he entered the room, she arose and extended her hand. He grasped it firmly, and while the two were standing, facing each other, Miss Linkhaw drew a pistol and fired at him, the ball entering his body, in the immediate vicinity of the heart. The most plausible, and generally accepted explanation seems to be that Hartman had broken an engagement to marry her. In fact, it was even asserted that she made some remark, while just in the act of shooting, which indicated that he had disappointed or de-

ceived her in some way. So far as learned, she has vouchsafed no explanation herself. She was not required to go to jail, but should Hartman die, as anticipated, she will doubtless be there very soon after-

VEGETINE

I will try Vegetine. He did AND WAS CURED.

I got no relief, growing worse from day to day. I suifered terribly: I could not rest day or night; I was so reduced my friends thought I would never recover. I consulted adoctor at Columbus. I followed his advice: it did no good. I can truly say I was discouraged. At this time I was looking over my newspaper; I saw your advertisement of Vegetine. the "Great Blood Purifier," for cleansing the blood from all impurities, curing Humor. Ulcers, &c. I said to my family I will try some of the Vegetine. Pefore I had used the first bottle I began to feel better. I made up my mind I had got the right medicine at last. I could now sleep well nights. I continued taking the Vegetine. I took thirteen bottles. My health is good. The Ulcer is gone and I am able to attend business. I paid about four hundred dollars for medicine and doctors before I bought the Vegetine. I have recommended Vegetine to others with good success. I always keep a bottle of it in the house now. It is a most excellent medicine. most excellent medicine.

Is well known in Charles and the blood are many diseases; such as saltrheum, ring-worm, boils, carouncles, sores, ulcers and pimples. In this condition of the blood try the Vegetine, and cure those affections. As a blood purifier it has no equal.

inflore by to Bresery A BRIEF HISTORY:

The following is from the Raleigh News, and was a voluntary insertion and not an and was a voluntary insertion and not an advertisement:

"Years ago an old Indian left a receipt for curing Scroiula with Mrs. Person's father. Mrs. Person lives in Franklinton, or in that section. A child was born to Mrs. Person, and it had the Scroiula. The doctors gave it up to die. The thought of that receipt, that was now old and musty, and hid away in an upstairs grawer. She concluded if the child was bound to die, it wouldn't hurt to follow that receipt. She went out and gathered the herb, got the whiskey, and did as directed to the calld. Her child now lives well a d hearty. More than this: Only a tew months since a South Carolinian, whose name has slipped us, was suffering with some scroiulous affection on the heel he had been to the Hot Springs in Argansas, and from there he went to Kittrell Springs. Not fig did him any good. At Kitt ell's they tol. him of Mrs. Person's recipe, and Dr. — wrote to Mrs. Person's recipe, and Dr. — wrote to Mrs. Person's recipe, and Dr. — wrote to Mrs. Person's secipe, and Dr. — wrote to Mrs. Person's secipe, and Dr. — wrote to Mrs. Person's secipe and Dr. — wrote to Mrs. Person's secipe and Dr. — wrote to Mrs. Person's secipe and Dr. — wrote to Mrs. Person is she cured that South Carolinian her receipt was worth money. And the south Carolinian sent her word if she cured him he would give her five hundred dom.rs. She sent him directions what to do, and added if they cured him he could send her twenty-five dollars; she wouldn't ask five hundred. The South Carolinian went home, and shor ly afterward sent Mrs. Person a check for twenty-five dollars, and wrote the most graterulletter he knew how. Bless these old indians. M s. Joe Person:

Dear Madame—Your letter has been received, and on account of being absent from home for a week or two, have not hed the opportunity to answer it. I certainly will take great pleasure in doing all that is within my power towards getting you patients for treatment of Sciolula. I hardly know how to express my gratitude to you for curing my three little children. They took medicine from my family physician for about two years, with scarcely any relief at all. I tried your remedy, and in less than three weeks they were all perfectly cured, and have never shown any sign of breaking out again. I feel very thankful to you. I can safely say that I believe your femedy to be a certain cure for Sciofula. If I can ever be of any service to you in any way, I want you to be sure and call on me. Yours truly, WM. H. Arennofion.

It gives me much pleasure to be able to state that I have derived an effectual cure of Scrofula from the use of Mrs. Joe Person's remedy for that disease. I had suffered from Scrofula for more than three years, and had despaired of eve getting well. I was treated during that time by three very emine, t physicians, without anv good result. I then went to the National Surgical Institute, at Atlanta, Ga., and was treated there more than two months, with no better result than my family physicians met with. Aft-r I returned from the Institute I was persuaded to try Mrs. Person's remedy, and I had not used it more than a week before I discovered its curative and healing properties. My sores soon began to heal, and the color of my skin changed as fast a the sores healed. I had not thought of ever getting well again, but my hopes increased, my low spiritedness fied before the remedy, and I am now enloying splendid health and am in good spirits. The remedy is mild as a purgative, and a strong tonic; it will heal the most stubborn sore in three weeks if taken legalarly. It is my opinion that it should be taken some time after the sore is healed, to remove the cause of its effects. It should be taken regularly by all means, for I have sometimes neglected it, from the pressure of business, and in all cases found that the cure all-eady made would commence to retrograde, and for this alone it should be taken at the proper time. I would recommend to all who are suffering from Scrofula to try it. It will surely cure you it you give it a fai test. I speak from experience, and not from hearsay. I am a grateful recipient of a cure from the use of it and I am under many and lasting obligations to Mrs. Person for the great relief i have obtained from its use. Sufferers, try it and be cured, is my advice.

I am, respectfully,

My receipt for the cure of Scrofula has 'It will Cure if Fairly Tested.'

My receipt for the cure of Scrofula has been tried by me with the most unprecedented success for the last twelve years. and I have no hesitation in recommending it as a govereign cure for that disease and as a general Tonic and Blood Pur iner. it is everywhere giving perfect satisfaction, while my experience with it is too limited for me to specially recommend it for other diseases, I believe it will ultimately prove to be of benefit in all cases arising from impurity of the blood' and probably for other diseases.

A CASE OF CANCER.

FAYETTEVILLE, N. C., Aug. 12, 1878.

FAYETTEVILLE, N. C., Aug. 12, 1873.

MRS. JOS PERSON:

Dear Madam—I have been using your Remedy for Scrofula over five months as an experiment for cancer. The cancer is of long standing, the doctors have been treating it, more or less, for twelve years, it has taken off my upper lip and a good part of my nose. When I began to use your Remedy it was growing rapidly worse, but the medicine seemed to check! tvery soon, and it has not made much progress since, except about two months ago, the medicine gave out, and I was without several days. It then seemed to start anew, and grew worse very fast, until I had taken the medicine about a week, since then it has not changed much. I think if I could have had the medicine soon enough, it would have cured me.

For more than a year before using your medicine. I was troubled very much with a disease of the heart, an irregularity in its action. It would miss every third beat for hours, then at other times it would increase in its action, and run up to 20: beats per minute. Since using your medicine I am almost entirely relieved of this, rarely feel it, and then not enough to speak of it. I would recommend any one suffering with heart disease to try your medicine. As a Tonic and Alteratives known to the medical profession for the last 12 years and I know of none superior to this. I think your medicine is desinned to be a great blessing to the affileted. Let every one that needs a Tonic or an Alterative give it a trial, and I do not think they will be disappointed.

Very truly and Respectfully,

Will Practice Here.

Charles H. Martin, Esq., a talented young lawyer, who has been practising his profession in Franklinton, will soon move to this city, and make it his future home. Mr. Martin is a gentleman whose ability and merit are both of the highest order.

Gov. Vance's New Home.

Governor and Mrs. Vance arrived in the city yesterday, an l at once occupied the elegant brick residence on Fayetteville street, formerly the home of Hon. Kemp P. Battle. The house has been placed in proper order, having been leased by the Governor. Mrs. Vance was not seriously affected by her trip from Charlotte, but is very feeble. It is hoped that the change of scene may prove beneficial to her.

Death of Jeff, Fisher, Esq.

Yesterday morning this gentleman, after an illness of some three weeks, expired. The cause of his death was Bright's disease, coupled with an affection of the heart. Mr. Fisher was about 47 years of age, and had been a resident of this city for some thirty years. He was born and raised in the town of Emmettsburg, near Baltimore, Md. Soon after his removal to this city he married a sister of Col. Wm. J. Clarke. He was well known in this part of the State as a most successful farmer. was the owner of large tracts of land near the city, as well as of much property in it, and was one of the wealthiest residents. The funeral services of the decea ed gentleman will be held at Salisbury street Baptist church to-morrow afternoon.

List of Premium Awards.

Below will be found a part of the premiums awarded at the 18th Annual Fair of the North Carolina Agricultural Society, October 14th, 15th, 16th, 17th, 18th and 19th.

The awards first named are the regular premiums as announced in the pre-mium list, competed for and duly awarded, by the judges whose names

are appended. The judges in many departments proceeded farther, to award second premiums in cases not authorized in the premium list, or more properly speaking recommended the same to the Executive Committee. The recommendation, however, can only be respectfully received, and honorable mention made of the same, from the want of duplicates of the articles regularly authorized in the list, which there were no instructions to award. In Department H. 2d Division Ladies' Handiwork, second

premiums will be given.

Well-Toned Systems.

Systems toned and renovated with Hos etter's Stomach Bitters are most effectually defended from disease. That supreme invigorant soon overcomes that distressing feebleness consequent upon allments which impoverish the blood and relax the muscles. Vigor, appetite, sleep return to the wasted frame, and every physical faculty gains greater activity through its benign influence. Nor is this all, for the Bitters have a most gental and cheering effect upon the mind of the despondent invalid, which is the natural effect, of the increased bodily vitality which they produce. Neivous symptoms disappear in consequence of the use of this medicine, and the evil consequences sure to result from a premature decay of the physical energies are averted. Dyspeps'a, liver complaints, rheumatic alim-nis, urinary and uterine irregularities, malarial diseases, and many other disordered conditions of the system, are remedied by the Buters! Well-Toned Systems.

NEW ADVERTISEMENT EC' BAKING FOR SALE BY ALL GROCERS.

We ask all cooks, housewives, and the general public to give our goods an impartial trial. This Powder is carefully prepared upon scientific principles—the result of long and careful experiments and tests in chemistry. In its proportions and compounding, it is the perfection of science, and is recommended by the leading. It emists in the United States, whose certificates we have. It is perfectly pure and wholesome, and saves time, labor and money of every consumer. It stands unrivaled; we challenge the world to produce better pure and more wholesome goods.

REASONS WHY IT SHOULD BE USED:
A BARBEL OF FLOUR MAKES ABOUT 40 POUNDS MORE BREAD
IT NEVER FAILS AND ALWAYS PLEASES THE CONSUMER.
IT IS THE PERFECTION OF SCIENCE IN COOKERY.
IT IS A COMFORT FOR EVERY HOME.
YOUR BREAD WILL NEVER BE SOUR.
YOUR FOOD WILL BE THE BEST.
YOUR BREAD WILL BE WHITER AND RICHER.
YOUR HEAL! H WILL BE PRESERVED BY ITS PURITY.

WARRANTED TO KEEP IN ANY CLIMATE We do most earnestly caution consumers of Baking Powder against using adulterate and cheap goods, as no good and pure Baking Powder can be sold for less than ours. An analysis of the cheap clap-trap spurious adulterated goods called Baking Powder, would startle the community of consumers beyond precedence, as most of it is not at for use, and would not be allowed to be sold were the laws enforced; yet goods of this kind are manufactured and sold by dealers because offered cheap by unscripplous manufacturers. We caution those who value health, and appreciate good, wholesome living to buy only Pure Baking Powder. Jones' Unrivaled is such. It is an established article throughout the West and South, and is recommended by the highest authority for Purity and Strength. All first-class storekeepers have it because it is pure and can be relied upon, and is a credit to their stock.

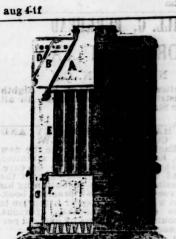

credit to their stock.

Merchants are authorized to warrant our goods where directions are followed.

Our statements are correct and are backed by chemists of note and experience, and we hold ourselves ready to prove our assertions.

We are offering goods of undoubted purity, which are in their compounding, as we claim "UNBIVALED."
